

Hello Parents and Students!

I hope this email finds you well and making the best of this unprecedented time in our history. I am emailing today to share with you a wonderful opportunity that students can still take part in this coming summer, Pennsylvania Free Enterprise Week (PFEW). This will be their 42nd consecutive summer offering this once-in-a-lifetime experience.

PFEW is a statewide summer program open to current sophomores and juniors in high school. At PFEW, participants learn about business, life and themselves. They live on a college campus, learn how to run a business, interact with top business professionals and form lifelong friendships as they compete for prizes and the title of top company! Most importantly, they will grow both personally and professionally and prepare themselves for successful post-secondary education or the workforce. PFEW is a valuable addition to any college application or résumé. This educational summer program is offered over several one-week sessions held in Williamsport, PA during July and August.

Students: Throughout this adventure, you will meet and work with some of Pennsylvania's top executives. You'll also make amazing new friendships as you work with 16-18 other sophomores or juniors from all across Pennsylvania. You will learn the value of teamwork and how to recognize talent in yourself and others, and you'll learn skills that will serve you a lifetime. You will listen to some of the nation's best speakers who come to impart powerful messages that will leave you breathless and inspired to achieve greatness. You'll also learn about various career opportunities right in your home town and throughout Pennsylvania. But most importantly? You'll have FUN. It's not hard to see why PFEW is ranked as one of the top educational summer programs in the nation! Don't believe us? Listen to Steven Chen from J.R. Masterman High School, 2019 PFEW Graduate - ***"I can proudly say that this was the most productive, entertaining, and above all, enlightening summer of my high school career. There is a certain indescribable feeling you get from listening to a speaker face-to-face that you cannot get by watching a speech on YouTube, for example. I can only offer words of praise, regardless of whether or not someone goes into business for a career, for the skills utilized here this week are absolutely universal."***

Parents: PFEW's number one priority is the health and safety of your children. They will follow all guidelines set forth by our state and federal governments, and adhere strictly to mandated policies and procedures to ensure the safety of everyone involved. As of this writing, they are preparing for another fantastic program. However, they are planning for any and all contingencies that will affect the timing and size of the program and will always keep you abreast of all developments. With that in mind, we ask you to strongly encourage your students to sign up today for the once-in-a-lifetime PFEW experience!

To learn more about PFEW or to apply/download an application (It's FREE to apply!), visit their website at www.pfew.org. If you have questions about the experience, please do not hesitate to contact PFEW's Schools Manager Amber Goss at amber@pfew.org.

We hope your family will consider PFEW this summer. It's a fantastic way to prepare for future success!
